The 1st Module of R-FETPV 13th batch (2022)

The 1st Module of R-FETPV 13th batch (2022) on Basic Epidemiology and Surveillance Data Analysis or June course was conducted in-person during 9th June – 28th July 2022 starting with “Introductory course on epidemiology and biostatistics” that was organized during 13th June – 8th July 22. Additional training courses were conducted later to support and assist the trainees in producing the first module's output more effectively.

The health situation/surveillance data analysis workshops at NIAH (National Institute of Animal Health).

After completing the Joint introductory Course on Field Epidemiology and Biostatistics, veterinarian trainees attended the health situation/surveillance workshops at NIAH (National Institute of Animal Health). The first day visited at NIAH, Dr. Tapakorn Chamchoy, veterinarian working at the National Institute of Animal Health of Thailand led the visit around NIAH on 11th July 2022.

Special Lecture

Special Lecture of Health situation/Surveillance Proposal Development Workshop was given by Professor Sanipa Suradhat, Dean, Faculty of Veterinary Science, Chulalongkorn University on 11th-12th July 2022.

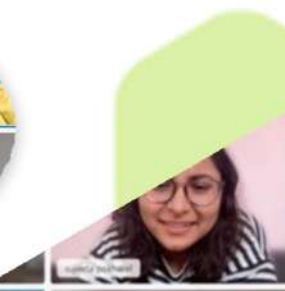

Epidemiology software for Animal Health (QGIS) workshop was given by guest lecturers from department of livestock development on 18th – 20th July 2022 and Epidemiology software for Animal Health (R Program) workshop was given by guest lecturers from The Department of Livestock Development and Akkhraratchakumari Veterinary College on 21st – 22nd, 25th-26th July 2022.

Follow-up of R-FETPV trainee

After completing all the courses of R-FETPV 1st Module 2022, R-FETPV trainees are responsible for submitting the report after returning to their home countries. Therefore, the follow-up surveillance data analysis time was conducted online two times per person by R-FETPV team and trainees' mentors during 22nd Aug – 2nd September 2022 and 15th – 26th September 2022 including the follow-up outbreak investigation of R-FETPV 2nd Module 2021 (12th batch trainee 2021) too for the continuity of working.

The SEAHOHUN International Conference 2022 "Catalyzing One Health Citizens of the Future"

CATALYZING ONE HEALTH CITIZENS OF THE FUTURE

R-FETPV staff joined with active participations in The SEAHOHUN International Conference 2022 "Catalyzing One Health Citizens of the Future" which was held on 6th – 7th September 2022 at the Grand Richmond Hotel in Bangkok. The conference was a knowledge-sharing event for current and aspiring One Health practitioners, educators and researchers. It brought together a scientific conference convening researcher, practitioners, faculty members, students, and others to share experiences and best practices in research and education in One Health. On September 7th, Dr. Sith Premashtira, manager of R-FETPV, participated in the plenary session on "Catalyzing One Health Citizens of The Future" as a panelist. Furthermore, on the 8th, R-FETPV team attend the partnership meeting to discuss how to synergize efforts to advance One Health workforce development with other partners in the region.

Expanding operational collaboration to the network

The R-FETPV organized meetings to explore the possibility of working together with other training/ educational programs and to establish a collaborative agreement, guidelines, and mechanisms for mutually collaboration of the next steps.

“The R-FETPV curriculum revision planning and collaboration expanding: the 1st meeting” was organized on 1st July 2022 09.00 am – 04.00 pm at Tieng Tansanguan conference room (3rd floor), The Veterinary Council of Thailand. Attendees had the fruitful discussion for the possible collaboration between R-FETPV and other training programs, cooperation, and responsibility of each institution for planning the future collaboration.

“The R-FETPV curriculum revision planning and collaboration expanding: the 2nd meeting” was jointly organized with Faculty of Veterinary Medicine, Kasetsart University on 22nd - 23rd Sep 2022 09 at Centara Grand at Central Plaza Ladprao Bangkok. The meeting discussed on the R-FETPV curriculum revision in connection with the master degree and postgraduate training program. The developing a Residency Training Program in Veterinary Public Health to achieve Diploma of the Thai Board of Veterinary Public Health that meets The College of Veterinary Specialties of Thailand (CVST) curriculum, Veterinary Council of Thailand and in preparing the Department of Livestock Development (DLD) to be part of responsible institution were discussed effectively and efficiently.
