Outbreak Investigated Demonstration Survey Trip

R-FETPV staff made the survey trip at The Regional Livestock Office No.5 and Chai Prakan Dairy Agriculture Cooperative Limited, Chiangmai for preparing the Outbreak Investigation Demonstration Workshop during 7th – 8th November 2022.

The Second Visit under the R-FETPV 1st & 2nd Module 2022

Participants from the 1st Module cohort of 2022 were invited back to FETPV Coordinating Unit to join the 2nd visit under the R-FETPV 1st & 2nd Module 2022 during 13th November – 4th December 2022. Trainees presented their outputs and attended the outbreak investigation demonstration workshop.

Scientific Conference on R-FETPV Output Presentation of 1st R-FETPV (13th batch of 2022) and 2nd R-FETPV (12th batch of 2021)

R-FETPV organized The Scientific Conference on R-FETPV Output Presentation on 16 – 17 November 2022 at Cinnamon Residence Hotel. Six outputs of animal disease outbreak investigation were presented by six Thai trainees from cohort of 2018, 2019, and 2021 on day 1: 16 November 2022.

On day 2 of 17 November, Six out of eight from the 13th batch trainee including 2 internationals from Nepal and Philippines and 4 Thai gave oral presentations on their outputs of animal health situation/surveillance data analysis. Additional comments and technical inputs were provided by invited experts. Certificates of achievement for trainees who have successfully completed the R-FETPV 2nd Module, 2021 and First Module 2022 were presented.

The Value Chain Analysis Workshop

The Value Chain Analysis Workshop was organized on 21st – 22nd November 2022 at Tieng Tansanguan conference room (3rd floor), The Veterinary Council of Thailand before attending the Outbreak Investigation Demonstration Workshop. Assistant Professor Dr. Waraphon Phimprapai, lecturer from Department of Veterinary Public Health at Kasetsart University and Dr. Tosapol Dejyong, from the Department of Livestock Development gave the lecture and led the group activities for trainees.

The Second Module of R-FETPV 2022 entitled "Animal Disease Outbreak Investigation"

The Outbreak Investigation Demonstration Workshop on "Bovine Respiratory Disease Complex outbreak in dairy cattle at Chiang Mai" was conducted from 23rd November to 3rd December 2022. Four R-FETPV international trainees from Indonesia (2), Nepal (1) and Philippines (1), four Thai trainees and staff of Herd Health Unit from Regional Livestock No.5 joined the workshop.

Experts from various partners were invited to give the lectures and to share their experiences to workshop participants such as USAID, and Faculty of Veterinary Medicine, Chiangmai University. Result of the outbreak investigation was presented by trainee to the Chai Prakan Dairy Cooperative Committee, and the officer from The Regional Livestock Office No.5.

Special Lecture on 3rd Dec 2022 “Applying result of outbreak investigation to disease control policy” by Professor Mo Salman

On 3rd December 2022, Prof. Dr. Mo Salman, Professor of Veterinary Epidemiology from Department of Clinical Sciences and College of Veterinary Medicine and Biomedical Sciences at Colorado State University contributed to the training on giving the valuable comments and suggestion to the trainees and staff of Regional Livestock No.5 on the result of the investigation.

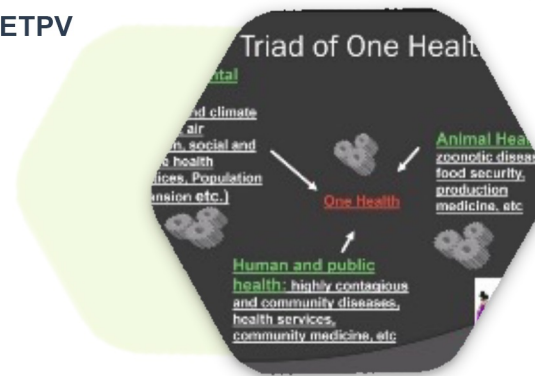

Special lecture entitled “Principles of Disease Management Strategies: Prevention, Control, Eradication.” “Applying result of outbreak investigation to disease control policy” were delivered in hybrid through the various example of outbreak investigations from over the world.

Special visiting to R-FETPV Coordinating Unit

Apart from the significant contributions to the R-FETPV training session in Chiang Mai, Prof. Salman visited the DLD in Bangkok to meet with senior DLD officers and promote R-FETPV. The R-FETPV organized the webinar for Prof. Salman to give the special presentations to DLD veterinary officer. Additional discussion between the R-FETPV and Prof. Salman were made to identify resources for future support to the program and to further strengthen collaboration between APhi as the FAO Collaborating Centre and the R-FETPV, and to expand professional recognition of R-FETPV graduates with the Veterinary Council of Thailand.

On December 9th 2023, Prof. Dr. Mo Salman made a courtesy visit with Dr. Narong Liengchareon, Director of Bureau of Disease Control and Veterinary Services, Department of Livestock Development and discussed on the outbreak activities that should be supported.
